Dear Parents,

Greetings from Central Academy fraternity. Summer Vacation is here and children associate holidays with trips and fun activities. Holidays are great learning experience hence we have tried to create holidays projects which are not only educational but also fun to do. This is the time when you can connect with your child in many ways. We have planned most of the activities for children to keep them engaged positively. Please encourage them to do these activities on their own under your guidance.

We wish you a wonderful time ahead!
